

Crystal IronStop

Enjoy stain-free, odour-free water

Chemical-Free Iron & Sulphur Filter

- Stain-free sinks, bath tubs, showers & fixtures
- Stain-free laundry that looks brighter and cleaner
- Dishware and glasses that shine and smell clean
- Crystal clear, odour free water
- Washing machines, hot water tanks & dishwashers won't deteriorate due to iron & sulphur buildup

How it Works

Water is oxygenated by passing through a bubble of pressurized air. The iron and sulphur is then precipitated into a form that can be removed by the filtering media.

- No chemicals
- No restriction of water flow
- Space Saving
- No air pump or contact tank
- No extra load on water pump
